

## 6th V-RMTC & T-RMN Annual Meeting

### National Survey

The purpose of this survey is to gather potential and useful inputs to improve technical and operational effectiveness of both V-RMTC and T-RMN as well as to enhance both systems' governance.

1. Each partners is invited to brief shortly on how V-RMTC/T-RMN contribute to their own national maritime situational awareness (5 minutes, during Steering Group session)
2. Which type of data and which kind of details would you like to receive to better support your decision making process?
3. Which tools already available within V-RMTC/T-RMN do you find useful for your purposes? which other would you like to have to be integrated into the system? Why?
4. Do you consider valuable the conduct of dedicated exercises such as the T-RISE, played in the month of September 2010?
5. What would you suggest to be considered when planning system developments ?
6. How do you see the establishment of a V-RMTC & T-RMN Steering Group as the governing body of the initiatives? Do you see any other governance options?
