

FINCANTIERI S.p.A.

Fincantieri is one of the world's largest shipbuilding groups, which in over 200 years of maritime history has built more than 7,000 vessels. It is world leader in cruise ship construction and a reference player in other sectors, from naval vessels to cruise ferries, from mega-yachts to special high value-added vessels, ship repairs and conversions and offshore vessels. Headquartered in Trieste, the Group has a total of nearly 20,000 employees, of whom 8,400 in Italy, 21 shipyards in 3 continents and total revenues of Euro 4 billion.

The Group, with its acquisition of Stx Osv, now renamed VARD – a company world leader in the construction of offshore support vessels for oil and gas extraction and production, listed on the Singapore Stock Exchange – has doubled in size to become the world's number four shipbuilder after the top three players, all of which Korean, as well as the first producer by diversification and presence in all high value-added sectors. Fincantieri operates in the United States through its subsidiary Fincantieri Marine Group (FMG). This company, which serves both civilian and government customers, including the U.S. Navy and Coast Guard, has three shipyards (Marinette Marine, Bay Shipbuilding, Ace Marine), all located in the Great Lakes region. Fincantieri is present in the UAE with Etihad Ship Building, a joint venture set up with Melara Middle East and Al Fattan Ship Industries, to design, produce and sell different types of civilian and military ships as well as perform maintenance and refitting activities.

Since 1990 Fincantieri has built 65 cruise ships worth a total of dollar 28 billion.
